Subject: RE: Oregon CZARA

Mark and Marianne, I'm here and I'm available. We just had a good call with all the state agencies (ODA, ODF, ODEQ and DLCD) to give them an overview of the decision and the path forward. They were very appreciative. I shared our talking points with them afterwards and emphasized our goal to work with them to get to an approvable program. Lots of questions on penalties. We explained that the State's commitment and demonstration of progress to address the gaps is critical to whether we would withhold funds. We don't want to withhold funds, but the work we do together in the next few months is crucial and the ball is in the State's court to commit to plan and milestones for closing the gap.

Joelle got a call from Inside EPA. Gave the reporter -- Chris ?-- my name to follow-up on questions regarding implementation ready TMDLs.

Oregon Live has posted a story that leads with penalties. We should contact them to clarify if they haven't contacted us. The reporter is Kelly House.
